Automatic Compress Packaging Machine

适用范围

适用于不同厚度胶袋包装的各种被褥、枕头、靠垫、海绵等蓬松物的压缩包装。

Application

It is suitable for the compression packaging of various fluffy materials in plastic bags, such as bedding, pillow, cushion and sponge, etc.

Features

- It integrates feeding, compression sealing, and the operation is simple and convenient.
- The packaging space is reduced by compressing the fluffy articles. Volume is reduced but the appearance of the articles is flat, which plays the role of moistureproof and dust-proof and reduces the storage and transportation cost.
- Circulating water cooling at the hot seal to ensure the sealing quality.
- The sealing temperature can be adjusted arbitrarily according to the thickness of different plastic bags.
- It can be connected with the conveyor belt on the assembly line to achieve automatic production.
