

全自动绣缝一体机 (SewEmb Pro)

任意转缝纫机头+精密绣花机头

Fully Automatic Embroidery + Sewing Integrated Machine

Freely rotating sewing head + precision
embroidery head

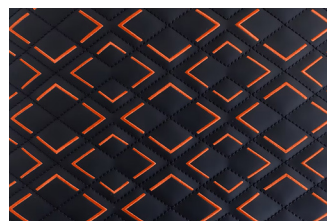

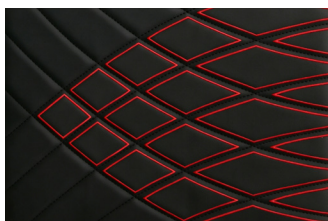

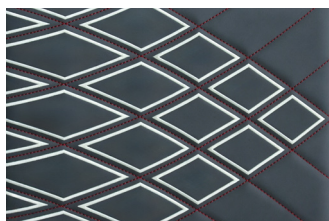

应用领域

适用于汽车座椅、汽车内饰、航空座椅、箱包、软体家具等行业，各种类型及厚度的真皮、超纤皮革的绣花与缝纫复合工艺加工。

Application

Suitable for embroidery and sewing processes on various types and thicknesses of genuine leather and microfiber leather, widely used in automotive seats, car interiors, aviation seats, luggage, furniture, and related industries.

性能特点

- 专为绣缝一体化工艺定制的机架，采用高强度结构设计，刚性足、稳定性强，为多工序精准联动与复杂工艺运行提供可靠支撑。
- 15寸触摸中控屏，界面友好，操作便捷。
- 9色皮革专用精密绣花机头，刺绣精度高，色彩层次丰富，图案立体感强，适配皮革材质的工艺特性。
- 专为皮革材料研制开发的缝纫机头，配合精准的传动机构，确保线迹均匀美观。任意角度旋转机头，确保缝制过程都是正向线迹；机头最高可升降50mm，提供充裕的上料空间，操作便捷省力。压脚由电机独立驱动，压脚高度可在操作界面中进行设置，以适应不同厚度及台阶缝纫的需求，保证压脚的压力一致。集成面线断线实时检测、底线用量精准计数、裁片产量自动统计功能，实时掌控生产状态。
- 关键部件如针杆及相关零件采用DLC涂层处理，表面硬度高，耐磨损，显著延长机器使用寿命。
- 选配：专业制版软件，再登智能冲绣缝CAD系统。

Features

- The frame custom-built for integrated embroidery and sewing processes adopts a high-strength structural design with excellent rigidity and stability, providing reliable support for precise linkage of multiple processes and operation of complex crafts.
- 15-inch touchscreen central control panel with a user-friendly interface for easy operation.
- The 9-color precision embroidery head for leather features high embroidery accuracy, rich color layers and strong pattern three-dimensionality, perfectly adapting to the technical characteristics of leather materials.
- A sewing head specially developed for leather materials, combined with a precise transmission mechanism, ensures uniform and neat stitches. The machine head can be rotated at any angle to guarantee forward stitches throughout the sewing process; it can be lifted up to 50mm, providing ample feeding space for easy and labor-saving operation. The presser foot is independently driven by a motor, and its height can be set in the operating system to adapt to sewing requirements of different material thicknesses and stepped workpieces, ensuring consistent presser foot pressure. Integrated with real-time upper thread breakage detection, accurate bobbin thread consumption counting and automatic cut piece output statistics, it enables real-time monitoring of production status.
- Key components such as the needle bar and related parts are treated with DLC coating, featuring high surface hardness and wear resistance, which remarkably extends the machine's service life.
- **Optional:**
Professional Pattern Making Software, GetonAgain SewPerEmb CAD.

全自动绣缝一体机

Fully Automatic Embroidery + Sewing Integrated Machine

常规型号 Models

产品型号 Model	系列 Series	头组 Head Group	工作面积 Working Area	占地面积 Machine Size (L×W×H)
GOA-AP	E+S	1	1200 × 800mm	4615mm×2513mm×1760mm
GOA-AP	E+S	1	900 × 600mm	4015mm×2120mm×1760mm

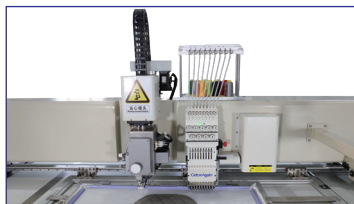

参数说明 Parameters

最高刺绣速度: Embroidery Speed:	800-1000针/分钟 800-1000stitches/min	最高缝绉速度: Sewing Speed:	1000-1200针/分钟 1000-1200stitches/min
绣花适用针: Embroidery Needle:	9-16#	缝绉适用针: Sewing Needle:	18-23#
夹料方式: Material Clamping Method:	绣框夹料 Embroidery Frame Clamping	针步长度: Stitch Length:	0.1-25.6(mm)
缝绉梭芯: Sewing Bobbin :	皮革专用2.6倍大梭芯 Leather-specific 2.6 times large bobbin.	供油: Oil Supply :	自动供油 Automatic oil supply
气压: Air Pressure :	0.6MPa	电源: Power Supply:	3P 380V

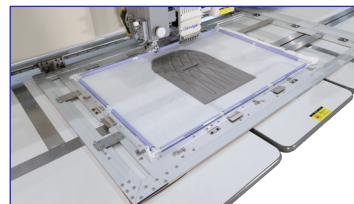

主要配置 Machine Configuration

15寸高清工业触摸屏
15-inch High-Definition Touch Screen

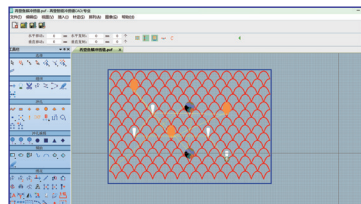

任意转缝绉机头+精密绣花机头
Freely rotating sewing head + precision embroidery head

工装夹具
Specialized Fixtures

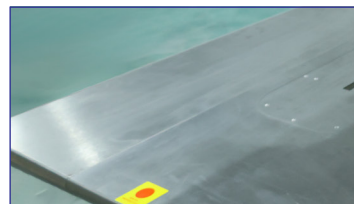

选配装置 Optional

再登智能冲绣缝CAD系统
GetonAgain SewPerEmb CAD

智能物联网系统
GOATS-IIoT System.

不锈钢台面，坚固耐用。
Configured stainless steel table,
Strong and durable.
